ROSES

ALL STOCK GUARANTEED TRUE TO NAME. DUG FRESH FROM THE GROUND AT THE TIME OF YOUR PURCHASE

Popular and Choice Varieties

TO OUR CUSTOMERS:

The coming rose season finds us with nearly a full stock of varieties but short on quantity. Labor conditions among the growers in this locality greatly affected the growers' stocks. By ordering a year in advance we were able to obtain a "lion's share" of the available stock in Western Washington and Oregon. Increased labor and operating costs are now beginning to reflect into wholesale prices, so it has become necessary for us to advance our retail prices accordingly. We assure you that our same quality and guarantee stand.

Early sales may deplete the limited stock of some varieties and we suggest that you either state in your orders "No Substitutions" or name a second choice. All of the roses listed are exceptionally choice varieties; you are assured of a good rose merely by choosing one of the desired color.

Mail orders are given the same careful attention that is given customers here at the nursery. We guarantee your order to arrive in good condition. To relieve salesman-customer time, which has become a very serious problem during the labor shortage, as well as conserving gas and tires, we solicit your rose trade by mail. Thanks to all of our old customers for 40 years of happy and friendly association.

O. R. (RAY) ADAMS, Manager.

The following are healthy two-year-old plants guaranteed to flower this year. Available from about December 1 to June 1. Dug fresh from the ground when your order is filled. Not waxed or in cartons.

All roses in the following list are heavy No. 1 Grade—the very best obtainable!
